Hallucinogens Other Than LSD: Trends in Annual Use, Risk, Disapproval, and Availability
 Eighth, Tenth, Twelfth Graders

*Beginning in 2001 a revised set of questions on other hallucinogen use was introduced, in which "shrooms" was added to the list of examples. The dotted lines connect percentages that are based on data from the revised questions.

**In 2001, the question text was changed from "other psychedelics" to "other hallucinogens."
