NOTES: '—' indicates data not available. See Tables D-104 to D-106 for the number of subgroup cases. See Appendix B for definition of variables in table. Data for 8th and 10th graders based on one of four forms; N is one-third of N indicated in Tables D-104 and D-105. Data for 12th graders based on one of six forms; N is one-sixth of N indicated in Table D-106.

^aParental education is an average score of mother's education and father's education. See Appendix B for details.

^bTo derive percentages for each racial subgroup, data for the specified year and the previous year have been combined to increase subgroup sample sizes and thus provide more stable estimates.
