

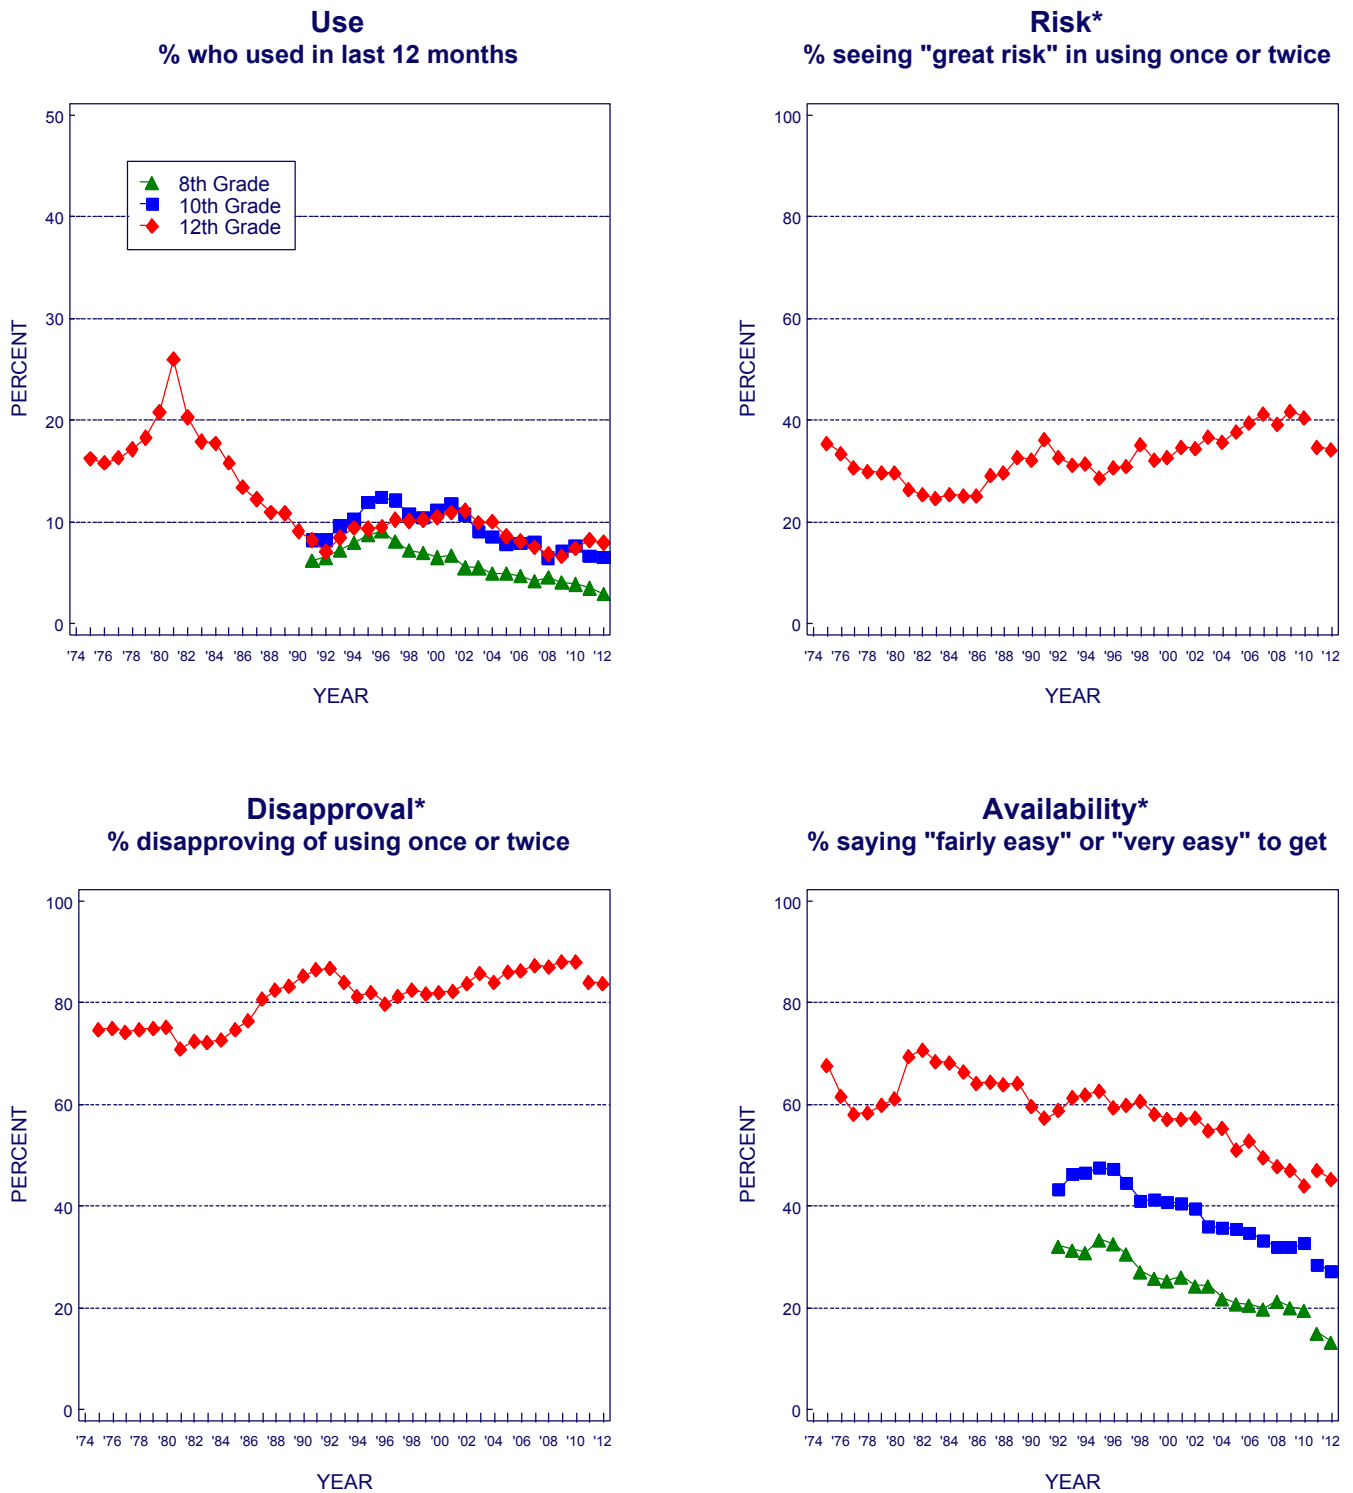

**FIGURE 14**

**Amphetamines: Trends in Annual Use, Risk, Disapproval, and Availability**  
 Grades 8, 10, and 12

Source. The Monitoring the Future study, the University of Michigan.

\*In 2011 the list of examples was changed from uppers, pep pills, bennies, speed to uppers, speed, Adderall, Ritalin, etc. These changes likely explain the discontinuity in the 2011 results.
